“ *Monty and I were best friends, we worked together at Penske for many years. He was my best friend, but more like a father to me. I am finding it hard to find closure since I was unaware of if or when Memorial Services were being held. He will be truly miss. hoping that someone from his family can get in touch with me.*

Monty was my first cousin and I was not notified of his passing either and only found out by accident a few days ago.

I am glad to know he had a good friend, I, too will miss him greatly. He overcame much to have the life he had. I am proud to call him family.

He will be missed by many.
